State Bank

of Table Rock

JJ CONSTRUCTION - Lincoln, NE

Jean grew up on the farm near Loma, NE. He attended Milford Trade School and graduated in building construction. He has been framing and remodeling homes for many years. He contracted and helped build the Roca Branch of State Bank. Jean says that "in the last 10 years I have had the privilege to be renovating old and new catholic churches with my wife Char; one being St. Anthony's Catholic Church in Steinauer.

They say if you enjoy what you do for a living it isn't work. So I guess I have never worked a day in my life so far. I truly love what I do and

the people I have worked with. An old carpenter I worked with told me once; if you don't like what you just did then you better change it because no one else will like it either; and that is my philosophy in life."
