Fake Bank Site Spreads Malware

The Office of the Comptroller of the Currency announced a warning November 17, 2011 about HelpWithMyBank.com, an illegitimate website pretending to offer consumer information about bank accounts and loans.

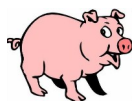

Once a consumer visits the website HelpWithMyBank.com, it redirects the individual to a legitimate consumer information site called HelpWithMyBank.gov, attempting to convince users they are connecting to a legitimate site. However, because the individual is connecting to the fake site first before the redirect it is believed to expose the consumer to malware.

The vice president and senior advisor of risk management policy for the American Bankers Association says that these so called typo-domains or domains that claim to offer legitimate consumer information in attempts to fool consumers into clicking malicious links are not new. However, there is little the banking industry can do to prevent these types of sites from showing up. It is very easy for hackers to register malicious sites under existing domain name systems. It is said that anywhere from 2,000 to 4,000 fake websites exist online on any given day.

The ABA has announced plans to get more involved in steps to protect the image of banking entities by regulating how sites affiliated with financial institutions and financial-services providers are registered. The additional measures proposed would be to have the URL be .bank. This would create a more protected environment and would help protect consumers from being fooled into visiting malicious sites.

HUMBOLDT: MEGAN HERR

Hello. My parents are Marlin and Rhonda Joy. I was raised on a farm outside of Stella and graduated from Southeast Nebraska Consolidated in 2009. I attended Southeast Community College for Business Administration. In July of 2010 I married my husband Cade Herr. We now live on a farm north of Humboldt. In my free time I like to be with my friends and family, ride horses, and landscape my yard. I started at the State Bank of Table Rock the beginning of October, and I really enjoy working here.

The Black Cajun "Not the Biggest But the Best"

Ron Smith grew up in Mobile, Alabama and was the oldest of eight children. According to Ron, each child had a specific job to do, and his was to help his grandmother cook. While helping his grandmother, Ron learned the secrets to Cajun spicing. "My grandma introduced me to spices," Ron said. Ron also credits Claudia Colliers, a longtime chef at the University of Nebraska at Lincoln, for teaching him the art of cooking. Ron believes that the combination of his grandma's secrets and Claudia's art create a family friendly atmosphere at The Black Cajun Eatery.

Ron Smith opened The Black Cajun Eatery at Tastes & Talents in February of 2011. The Black Cajun offers a wide variety of southern comfort food. Ron's specialties include gumbo, seafood, jambalaya and smoked meats. "We offer flavors you can't find around here and an atmosphere you want to bring your family, friends and business associates to," Smith said. The Black Cajun is located at 5740 Old Cheney, Lincoln, NE 68516 and is open Tuesday--Saturday 11a.m.-2p.m. and 4p.m.-6p.m.
